

Announcing new scientific research breakthrough ...

“Genius Tape”

**“How to Enter the Learning State in 13 Minutes
and Wake up a Little of Genius Inside You
for High Rank in Competitions
for Your Bright and Glorious Future.”**

Dear Friend,

If you want to explore new mind technology for your studies and learning for your high rank in competition, this may be the most exciting message you ever read. The message is so urgent that **I am sending it privately only to select customers.**

Why? Because this is

**“the first and most exciting development
in mind technology to help you
to enter the learning state and
to wake up the genius inside you”**

“I have 3 American mind machines, costing over \$900 (or Rs 45,000) and over 100 success and mind power related cassettes and CDs costing over \$2,000 (about Rs 1 lac) and several video cassettes costing over \$2,000 from the most famous creators in USA. I have used all these. But imagine my surprise when I listened to the Genius Tape, I was totally blown away. **All the other products I had used did not prepare me for the amazing relaxation that I got from 'entering the learning state'.** You have to listen to it to believe it because words simply cannot communicate to you the power and excitement of the Genius Tape.”

Only now 12 years after we created the remarkable Dr Anil Bapna's Mind Power Music, we have totally new scientific breakthrough for you. But as you'll discover on when you use Genius Tape, it has been worth the effort because it helps you to

**“Enter the Learning State. Easily. Quickly.
Without the need to learn and practice any methods”**

Are you wondering what is the meaning of “Enter the Learning State”? Let me show you:

“What a Reputed Magazine is Saying ...”

*“In one program to ENTER THE LEARNING STATE, you hear two different magical stories ... they **relax you, change your brain waves toward the desired alpha or theta.**”*

-- Business & Management Chronicle
Indian's only magazine for B-School Aspirants

**“And, more Important, Here is
What Users are Saying ...”**

Before I tell you more about it, let me show you what the users are saying about this technology and concept. **Each paid upto Rs xyz for our mind machine** and got this “enter the learning state” technology as part of the system (as you'll learn later you don't have to spend so much now.) And, none of them asked for money back.

*“The [program] 'Enter the active learning state' is **really powerful.** It relaxes me so much like I have never relaxed in the last few years. The alpha, theta, delta cassettes are also good. **I can feel the change in the state of the mind. I have also noticed improvements in learning.** My brother-in-law also liked the whole thing and he is planning to order.”*

-- Vivitsu Vashishth, Greater Noida (UP)

*“I have used it [the Mind Machine for Vocab] for 21 days and I am **completely satisfied... my sleep cycle has changed, my concentration has improved a lot, my behavior has changed, and most of all I feel very relaxed when I use the machine... Thank you Baiah [brother].**”*

-- Sandeep Kishore, Chittoor (AP)

*“I am using your mind machine ... is very helpful in learning words and ... **permanently retain in memory.**”*

-- Bhupinder Singh Chahal, Rohtak (Haryana)

*“Enter the Learning State is **effective and relaxes me completely.**”*

-- Kaushank Khandawala, Mumbai (MS)

*“Thank you from the bottom of my heart for .. the mind machine. I am using your mind machine for the last one month. I have **got enormous benefits.** My learning spirit and state have changed. Last Saturday while I listened to your cassette #1 and slept, I felt as if I am flying in the sky. 3 or 4 times I felt as if I am flying like a bird. During this experience I was **happy and cheerful....** Then, I was feeling as if **I became free from all bondage ... all limitations were dropped.**”*

--J. L. Jain, Assistant Commissioner of Sales Tax,
Author of the book How to Get Super Success,
Hypnotist and Psychologist

*“How nice it is when **my body sleeps and relaxes when my mind studies!** Dual Auto Peripheral Suggestions and Brain Wave Tonal Matrix based vocab system is the first in the whole world ... My heart [felt] thanks Bapna ji for your crown creation.”*

-- Prof Ashok Davda, Hypnotherapist, Thane (MS)

*“I have started using the Mind Machine for Vocab system and am initially pleased with the results. Enter the Learning State is **effective and relaxes me completely.**”*

-- Kaushank Khandawala, Mumbai (MS)

Are you wondering what is the meaning of “wake up the genius inside you”? It means that you perform at your best hidden ability and hidden talent of such high caliber that even you are not aware of such a possibility.

Consider this: Yogis and scientist agree on one thing:

**“that most people use only 10%
of their brain power and the
other 90% remains hidden and unused”**

“Genius” is when some of that hidden and unused brain becomes awakened. For example, one famous meditation guru Osho was known to read up to 10 books a day (whereas most normal people like you and me take a day to a week to read a single book). Another famous incident is from the life of Swami Vivekananda. Once noticing Vivekananda turn pages of a big volume of *Britannia Encyclopaedia*, someone asked “why do you just turn pages?” Vivekananda said, “I am not just turning pages. I am reading fully and remember fully. You can ask me anything from these pages.”

But, wait! That's perhaps not your goal. And, that's not my goal for you.

My goal for you simply is to help you to

**Enter the Learning State in just 13 minutes
and to wake up a little bit of 'genius inside you'**

So, you too can, like thousands of my students, get success in achieving your goals of getting high rank in competitions for your bright future and your glorious career.

For example, one of my students Rajiv Chaudhary set a memory record in Limca Book of Records. And, like many many of my students, you too can succeed in achieving your goal of high rank in various competitions for your glorious career and your bright future. And, that will make you, your parents, and your family very happy and proud.

Before I tell you any more, I want you to hear

**“What Osho, the greatest
meditation master had to say ...”**

“But these high-tech mechanisms can be of tremendous use in the right hands. **They can help create the kinds of waves in your mind** so that you start feeling relaxed, as if half asleep ... thoughts are disappearing and a moment comes that everything becomes silent in you. That is the moment when the waves are those of deep sleep. **You will not be aware of this deep sleep, but after 10 minutes, when you are unplugged from the machine, you will see the effects:** you are calm, quiet, peaceful, no worry, no tension; life seems to be more playful and joyous. One feels as if one has had an inner bath. Your whole being is calm and cool.”

**“And here is what Michael Hutchison,
the famous author of the book
Mega Brain had to say”**

“You sit down in a comfortable chair, put on the electrical headgear [headphones, etc.], flip a switch on the small control by your hand, close your eyes, and sink into a state of deep relaxation. Thirty minutes later as you turn off the machine and remove the headgear, you feel extremely alert and lucid. **Your brain is now functioning far more effectively** than it was before. Your memory-your ability both to memorize new information and to recall information you have already learned has increased dramatically. Your ability to think creatively, to solve problems, has expanded. The speed with which your brain cells pass messages among themselves has increased. In fact, many of your brain cells have actually grown-a microscopic examination would show that the brain cells have developed more dendrites, the branching filaments that carry messages from one cell to another, and more synapses, the junctures between brain cells across which impulses are transmitted. **You are more intelligent than you were a half hour before.**”

And, now I want to show you

“What really is this learning state?”

Can you recall a time or event in your life when “learning” something came very easily to you? It could be to learn something in a book, to ride a bike, to play a game. Anything. Can you recall a few more such times? Do you remember that, at such times,

**You know with certainty “you can do it”
and “time passes quickly”
and “there is no stress”**

That is being in a learning state. And, being in such a wonderful state tends to wake up a little bit of genius inside you.

OK, can you recall a time when learning anything was hard, boring, particularly difficult and stressful and the time appeared to move very slowly?

That state is the “OPPOSITE” of the learning state.

Do you know how to get into such learning state every time you sit down to study, so you can focus and concentrate effortlessly for greater success? And, learn in a more relaxed way, learn faster, remember better, without feeling sleepy, tired or bored? And feel energized by a feeling of certainty of success in achieving your most important goals in life?

Now, the Genius Tape provides you an easy and effective way to learn to enter the learning state.

Are you asking yourself, “How do I enter the learning state with the Genius Tape?”

It is easy. It is simple. You don't need to spend weeks or months to learn and master any new, difficult, boring or complicated methods or techniques. And it is totally effortless. All you do is

**“Just lie down on your bed
or sit comfortably in your chair,**

**close your eyes, and push the button
on your tape player”**

And, enjoy the voices and mild music on the tape for 13 minutes.

That's it.

And, as you open your eyes and you notice that you feel a sense of deep relaxation and calm as if you've just had a long peaceful sleep and an inner bath.

**“What happens when you
listen to the Genius Tape”**

Very simply, each time you listen to the Genius Tape, you enter the learning state and wake up a little bit of the genius inside you.

And, are you curious about

**“What *Mind Technologies* are used
in creating the magical Genius Tape”**

Even if I wanted to reveal all the secrets of how we created the Genius Tape, there is not enough space in this letter. Fortunately, you don't have to know or understand any of the mind technologies to benefit greatly. However, to give you an idea, here are 2 key mind technologies:

- Dual Auto Peripheral Suggestions (DAPS™)
- Brainwave Sync Tonal Matrix™

DAPS: You hear a different story in each ear in my voice that makes artful use of language, neuro linguistic programming, Ericksonian techniques to **immediately produce measurable relaxation** in you while building positive, powerful, empowering beliefs that produce dramatic breakthrough results for you.

And, it **breaks your negative blocks and beliefs** if any, which is necessary before major improvements can take place for your to see and feel big important results.

Brainwave Sync Tonal Matrix: To understand how it uses sound frequencies, consider this: If you play sound of 500 Hz in one ear and 510 Hz in the other ear, your brain “hears” the sound of frequency that is the difference of the two frequencies, i.e., $510 - 500 = 10$ Hz. This sound is called binaural beat and it does not actually exist in the environment around us, but it is only in the mind. People who study Physics know it is similar to “resonance”. When this happens, researchers are able to measure **increased levels of bilateral synchronized brain wave activity at the frequency of the binaural beat.**

These and other mind technologies used on the Genius Tape produce remarkable results for you quickly.

**“When you use the Genius Tape, expect
to feel for yourself great results in 13 minutes”**

What's more you don't have to wait for weeks or months to notice the benefits. Most people feel the benefits

on the first day when they use the first tape in just 13 minutes. Almost all people notice benefits within one week. You can expect to quickly notice and feel for yourself all the benefits of the learning state and waking up a little genius inside you.

“Get double the benefits and results from your hard work and your investment in coaching”

Many students spend between Rs 5,000 to Rs 80,000 or more for coaching and of course they also work hard. When you use the Genius Tape, you soon realize it doubles the benefits from coaching and hard work for greater success for you.

But, there are some things more important than these results.

“What would it mean to you and your family if you achieve your life's important goals this year and next”

You and only you know what it would mean to you, your parents and your family to achieve your life's current most important goals for this year and next. Great Job and Career? Pride? Happiness? Reward for sacrifices? Tremendous sense of achievement? Self-confidence? Money? Bright future? Relationships?

And, you only you know what the loss will be if you cannot achieve your important goals. Sense of loss? Feeling

of guilt of not doing your best? Shame? Sorry? Bad? Waste of sacrifices made by all in the family?

Do you realize your goals are not just yours? But, the ambitions and sacrifices of your parents and family are very much part of your goals and that makes it even more important for you to do everything you possibly can to achieve your goals.

How confident you are of achieving success? And, are you willing to do whatever is possible to ensure your big success?

Can you imagine how life will change when you use the Genius Tape you to learn to enter the learning state and wake up a little of genius inside you? How much do you think such a Genius Tape is worth to you?

Limited Time SPECIAL OFFER for YOU

Cassettes are
no longer available.

I am sure you realize that at Rs xyz, the Genius Tape is perhaps **the most expensive tape in India**. But, consider what the Genius Tape can help you achieve in life and you suddenly realize the price is nothing in comparison.

How to Order

Cassettes are
no longer available.

That's all.

If you are ambitious enough to set goals of high rank in competitions and if you willing to be disciplined enough, this opportunity is perfect for you.

But, it would last only for a limited time. So, order soon without delay.

And, now let me point out

An Important Word of Caution

There is a tendency in our country (perhaps because of extremely tough competition) among the sincere, smart, good, hardworking, successful students to “work too hard” and to do “things in excess”. I don't want you to listen to the Genius Tape too many times a day. I want you to listen to the Genius Tape just two times a day: once just before you sit down to study and once when you go to bed, so you use the time just before sleep and end up getting better sleep in night to wake up refreshed in the morning to begin the day and work towards success.

The Genius Tape is not for entertainment or fun, but the Genius Tape is perhaps

**“the most powerful tape
in the world at any price”**

When we created *Dr Anil Bapna's Mind Power Music* tapes in 1992, we created titles for “memory”, “concentration”, “will power”, etc. But, we did not create any tapes for “GENIUS” because we simply did not have, back then, the scientific breakthroughs and technologies necessary for creating such a remarkable tape.

It is only now 12 years later that I am really proud to present you the most powerful Genius Tape. Quite simply, there are no other tapes more powerful that you can get at any price anywhere in the world. That's how powerful they are.

Are you thinking, “I would really like to use the Genius Tape because it is so powerful, but is it safe for me? Are there any long term or short term side effects?” These are perfectly valid and important questions to ask. And the good news is:

“there are no side effects”

It is good to know that there are no side effects whatsoever. There are three ways to look at the issue of safety:

Letter: How To Wake Up A Little Of Genius Inside You

(1) The Genius Tape changes your brainwaves just like in meditation, but quickly, and just like in the case of meditation, which India has pioneered for over 5000 years, it is safe.

(2) Around the world, an estimated 50 lakh people are using mind technology products and even in India, we estimate that over 1 lakh people are using mind technology (in the form of our Mind Power Music or our Mind Machines or imported products) since 1992 and found safe and beneficial. In fact, mind technologies are becoming so popular that are getting incorporated into classical music CDs and others kinds of music around the world for the effortless benefits of relaxation for the users.

(3) The walkman or tape player you use to play *The Genius Tape* is hundreds or thousands times safer than a mobile phone. The mobile phone has a microprocessor that runs on a frequency of several hundred million cycles per second and you keep it in your shirt pocket (close to your heart) or elsewhere on your body. On the other hand, the walkman technology does not use microprocessor and you don't have to keep it on your body, making it hundreds or thousands time safer. And, since mobile phone itself is so common and safe enough, you can be sure that walkman type technology is fully safe. Another important difference to remember is that you are likely to use a mobile phone 8 to 16 hours a day for the next 30 years whereas you'll use a walkman for just an hour a day.

The real, amazing results from users of the Genius Tape have just started coming in ...

Letter: How To Wake Up A Little Of Genius Inside You

This offer was sent to about 987 customers by email. The customers had purchased something from us during the past 6 years and wrote by email. I don't know for sure, but my guess is that about 250 or 300 email addresses were still working and out of them a good number of people accepted this "amazing offer".

Here is what two of them just emailed to me:

Dear Sir,

This is my second week of using your Genius Tapes. I find a marked improvement in my learning. I realize that I am not only learning well in my academics but also in any other activity as well such as sports. I am also able to recall well and my memory seems to be better now. Earlier I used to have trouble recalling names, but now I am able to do that very easily.

Thank you,

***Srikanth,
IIT Madras***

Yes I have received all CD's and 3 tapes. One thing I notice that after hearing genius tape two times I feel cool and calm and more peace of mind.

Thanks for such a good creations.

Fortunately from the next day my CAD training program is scheduled and I can retain (remember) much more than past.

Sandeep Joshi

He wrote again a day later:

Another benefit I noticed is after hearing tape when I sleep I can awake early and feel more fresh energized then before result is I can give more time to my important activity.

I am a CAD designer and my profession needs concentration plus long hours of computer use. This results in eye strain and fatigue and in turn I can not sleep easily. Before going to bed I have to be relaxed and due to this I can not get enough sleep.

But now my this problem is solved

*Warm Regards
Sandeep Joshi*
